Enforcement Referral: Liquid Fence Company
EPA Region 2 Assignment #800

Dr. Adrian J. Enache, Team Leader
Pesticides Team, Region 2

A handwritten signature in black ink, appearing to read "Dr. Enache", written over the typed name.

Dr. Fatima El Abdaoui, Chief
Pesticides Program & FIFRA Enforcement, Region 3

We are forwarding for your action, a FIFRA referral which we received from the New York State Department of Environmental Conservation (NYSDEC). The company **Liquid Fence Company** is manufacturing/selling a product, **Liquid Deer & Rabbit Repellent**, which complies with most of the requirement for a Section 25(b) product, but with a label which states that the product is "For use on edible crops." As per our review of 40 CFR §180.950 (a) 2 ii and 40 CFR §180.1071, the use of Putrescent eggs is **not** allowed for use on edible crops. The company is located in your Region at **1365 Industrial Park Drive, Mt. Pocono, PA 18344**.

We are enclosing the documentation provided to us by NYSDEC. Also, we will electronically send you pictures of the actual label, catalog and other correspondence. Please keep us informed of any enforcement action you deem necessary. If you need any additional information on this matter, please contact Aarti Reddy at (732) 906-6866.
